Subject: RE: 10/30 STORMS IC Meeting Follow-Up

Greetings- It was good to see all of you on the phone for the IC meeting. As mentioned, EPA recently completed 3 reports of likely interest to the stormwater community that are now posted on EPA's website at <https://www.epa.gov/npdes-permits/municipal-stormwater-program-and-permit-improvements>.

The first 2 reports address 2 workshops we cohosted with SF Bay Regional Board to explore MS4 program and permit evolution and opportunities for improvement. The first workshop addressed program development in general and the second focused on stormwater monitoring, evaluation, tracking, and reporting. We will be keeping the findings and recommendations from these meetings/reports in mind as we discuss with you possible future projects to pursue in CA.

The final report addresses lessons learned from wetland mitigation banking and early stormwater crediting programs to inform the design of effective stormwater crediting programs in the future. This report was prepared last Spring by my colleague Janet Parrish and we just got around to posting it on the website above. We will likely have a national webinar in late November or early December to talk about stormwater crediting. I will send out info on that when it becomes available.

Thanks to all
Dave
